

Fatshedera lizei 'Angyo Star'

NEW

#1 container \$5.50 catalog, #3 container \$17.25 catalog

This colorful plant has leaves that are deeply lobed, reminiscent of sweet-gum, and are bright green with a wide margin of creamy white. Fatshedera also makes a great container plant for use outdoors or as a year round houseplant. This is not an ivy. For those who live and garden north of USDA Zone 7a, containers can be overwintered indoors.
